Patented Upgradeability

- Easily extend the life of the Titan by updating the remote with additional IR codes as new devices enter the market.

UNIVERSAL ELECTRONICS

Titan Remote Control

Highlighted Features

QUICK SETUP >>

Preset to your Set-Top Box – Titan comes pre-programmed to your specific set-top box, saving time at installations.

QuickSwap™ – Allows you to define up to 4 pre-set set-top box IDs, allowing installers to repurpose a remote from one ID to another in seconds.

Supports QuickSet – The XMP-2™ version fully supports the UEI QuickSet Remote Control Setup Tru2way™ application.

ADVANCED FUNCTIONALITY >>

Learning – Allows users to copy unique functions from their original device remote directly to Titan remote.

Backlighting – All of the Titan function keys light up when used, allowing for easy use in dark or low lighting conditions.

Master Power – This easy to enable macro allows the user to turn their entire home theater on or off with one key-press.

Device Mode Lights – Instant visual feedback clearly indicates current operating mode.

DVR/PVR Control – Full DVR control with transport and navigation keys intuitively positioned and highlighted for easy program selection and playback.

VOD – Easily access, navigate, and control On Demand programming.

Customizable – Tune-in overlay area makes it easy to customize up to 7 keys with unique functions, macros, and labels for easy access to additional revenue-generating features. This can be configured for IPTV, Digeo-Moxi or any other set-top box settings.

WWW.URCSUPPORT.COM

EASE OF USE >>

Channel Lock – Channel control is pre-set to operate the set-top box, regardless of device mode.

Volume Lock – Volume control is pre-set to operate the TV, regardless of device mode.

Cable ID Code Lock – Locks the set-top box pre-programmed ID code, preventing accidental ID changes.
